Art Unit: 2834

Claims 1-3, 13, 14 and 23-26 are rejected under 35 U.S.C. 102 as anticipated by Zakaria, Nguyn or Lin for the specific reasons set forth in the previous office action (3-6-30). First, it is noted that the “wherein” clause added to claim 1 does not modify the actual structural combination. A wherein clause is merely a statement of desired function. Secondly, it is noted that the electrostatic coupling between two objects is inherently controlled by the voltage difference between them. Regarding new claim 23 that “a pump” can fairly be interpreted as any A.C. source or interrupted (on/off) DC source.

Claims 4-6 are rejected under 35 U.S.C. 103 as unpatentable over Zakaria, Nguyn or Lin for the specific reasons noted in the previous office action.

Claims 7-12 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 15-22 are allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR

Art Unit: 2834

1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
